ATTESTATION of Crown Materials Used

By signing and attaching this document, I hereby attest that the crown material used to treat the patient in the attached claim matches the crown material approved and noted in the original authorization referenced in this claim.

Furthermore, I attest that there is not a laboratory bill showing the crown material used for the crown(s) in the attached claim because the crown(s) were manufactured by an in-house dental laboratory and not by an outside dental laboratory.

X

(This form must be signed above by the billing provider)

If you have not previously done so, please include ONE of the following items to provide sufficient proof and evidence of your in-house dental laboratory, to have an approved substitution for submission of a laboratory bill:

1. Photograph of your dental laboratory facility.
2. Records demonstrating a dental laboratory specialist is currently in your employ.
3. Recent invoices for materials purchased by your practice to be used for the manufacture of crowns.

Thank you. We appreciate your cooperation.
